

**Letter #3 – From the Sister of a Survivor**

Dear \_\_\_\_\_,

A lot of you know that every year I participate in the Tubbs Romp to Stomp Breast Cancer Snowshoe Series®, and every year I solicit you for pledge dollars to help in the cause.

What you may not know is WHY? The answer is simple. I do this for MY SISTER, MY MOTHER, MY FRIENDS, and MYSELF. I am only 42, but during my lifetime I have seen my sister diagnosed and a very dear friend die from breast cancer. Both of these women faced the diagnosis, treatment and challenges with courage, grace and tenacity. They are my heroes and I want to celebrate their lives by providing hope to others battling this disease.

I feel strongly that part of their legacy is how they are able to motivate others to make a difference. Together we can move mountains and find a cure for breast cancer.

Won't you help me raise \$X,XXX?

Sincerely,

YOUR NAME
